EXPERIENCE

Web Director | Design Interactive

May 2026 - Present

- **Maintain and improve our organization's website** by updating events, forms, resources, and meeting info while ensuring accessibility, usability, and SEO best practices.
- Designed **wireframes and prototypes** for the **DI Resource Hub**, then built and maintained pages and interactive elements in coordination with Communications, Education, and Marketing teams.

Graphics & Motion Designer | QuackHacks Hackathon

February 2025 - September 2025

- Designed the event's brand identity in Figma and Illustrator, **increasing sign-ups by 35%** and **online engagement by 30%**.
- Produced promotional graphics and signage to **reinforce brand consistency** across digital platforms, social media, and physical event materials.

PROJECTS

UI/UX Designer | Reliable Residence

Figma, Adobe Illustrator

- **Optimized user flow** for a startup platform connecting traveling workers with on-demand housing.
- **Reduced average search time by 40%** through streamlined navigation and a new map feature.

Product Designer & Frontend Developer | LearnAE

Figma, React, Lottie, Adobe After Effects

- Designed **wireframes and interactive prototypes**, then deployed a React site teaching After Effects basics.
- Ran **usability tests with 4 users** to refine layout, reducing cognitive load for beginners.

Frontend Developer | SwishScan

Swift, SwiftUI

- Designed wireframes and prototypes for a **ground-up iOS interface** for basketball shot form analysis.
- Conducted **user testing with 3 athletes** to validate **interactive data visualizations**, using feedback to refine.

EDUCATION

Bachelor of Science | University of Wisconsin–Madison

September 2025 - Present (Expected May 2028)

- **3.96 GPA**, Major in Computer Science, Certificate in Graphic Design.
- Dedicated officer of Design Interactive, member of Software Development Club and UX Club.

TECHNICAL SKILLS

- **Design:** Figma, Adobe Suite, Framer, Canva, PowerPoint, Motion Graphics, UI/UX Research & Prototyping.
- **Frontend:** HTML/CSS, JavaScript, React, Swift/SwiftUI.
- **Programming:** Python, Java, Go, Git, VSCode, JetBrains Suite.
